

Student Health Academy

If you think a career in health sounds interesting and might be for you, don't miss this opportunity!

2023

During the program you will:

- Get active with some skills that health professionals do in their work.
- Talk to local health professionals and university health science students.

At the end of the program you will:

- Have a greater knowledge of the range of health careers.
- Have a clearer understanding if a career in health is for you.

Parents & Teachers

The students will be immersed in experiences to support and develop their understanding of health careers. All activities are supervised by our staff in a safe environment.

Please contact WACRH for any more details on the program.

Be part of the Student Health Academy for Year 10 students
